## HUERTA'S NEXT MOVE POSITION OF PRESIDENT RESCUE CREW OF ABANDONED SHIP

DEEP MYSTERY OF SEA FOR TIME SOLVED

Wilson Calmly / State Historical and Natural History / developments; U.S. / Refuse to Talk

PORTLAND, Me., Nov. 6.—Waiting for word from Provisional President Huerta was the way the attitude of official Washington toward the Mexican situation was described today. Administration officials continued to refuse to shed light on the last communication, which conveyed to General Huerta the desire of the United States that he eliminate himself from the tangled situation.

They took the attitude that to disclose publicly the late phases of the problem might defeat the ends sought. The feeling in the national capital is none the less one of tense interest, especially as to what course will be pursued if General Huerta declines to abdicate. It was evident from those who talked with President Wilson about the situation today that he was awaiting developments calmly. He has told his friends he would continue to try to solve the situation by peaceful means and would not be disturbed by predictions of armed intervention.

Searching for Captain

The men missing besides Captain

Nelson are Lester Fletcher of Argyle

Sound, N. S.; Ross Worth of Phipps

Head, N. S., and Thomas Landry of Arichat, C. B.

Henry Nelson of Beverly, son of the captain, was left behind on the Boston

fishery schooner Jessie and Phoebe, exhausted from his experience, but longing to find trace of his father.

Until they reached here they were ignorant that they had abandoned their vessel unnecessarily, and that the loss of life might have been averted.

They reported that the Annie M. Parker, bound home from the fishing grounds off Newfoundland, with a full catch, was driven off her course by adverse winds and went around on the Rose and Crown shoals off the Nantucket coast, Saturday morning.

Craft Seemed Doomed.

The vessel was being racked and pounded by heavy seas, and the crew agreed with Captain Nelson that their only hope of safety lay in getting clear of the craft. So they abandoned her. Evidently the vessel later worked off the shoal in deep water and drifted uninjured to where she was picked up.

Three boats were put over the leeward side. The first was smashed, but the third was floated, and eight men put off in it. Two other boats were dropped overboard safely on the windward side. The first held three men, the last contained Captain Nelson and three of his crew.

It was pitch dark, and the dory crews were lost to the view of each other almost in a moment. The last seen of the boat in which Captain Nelson left his ship was when it was rounding the bow of the schooner. The seas were running high, and in one of the hollos between the little craft she swayed around the boat and out of sight.

Had No Food or Water.

The men in the other two boats did not see each other until daybreak. When they got together it was found neither had water or food.

They drifted about all day, and the following night, constantly buffeted by heavy seas, one of which carried Kenney, the cook, over the stern. Kenney fought hard to swim back to the boat, but went down before his comrades could reach him. He leaves a wife and seven children.

When they were picked up by the

ALL BUT \$98.50 OF \$6,000 1914 BUDGET HAS BEEN RAISED BY Y. W. C. A. WORKERS

Expense Fund Campaign Which Has Been on for Last Ten Days Will Close Tonight

Amount necessary to complete budget for 1913-1914..... \$6,000.00  
Total amount secured up to midnight last night..... \$5,901.56

Amount yet to be raised..... \$ 98.50  
Number of days remaining for campaign..... 10

Enthusiasm ran high at the gathering of the Y. W. C. A. workers yesterday afternoon, for almost all of the \$6,000 expense fund needed to complete the budget for 1913-14 has been raised. When the result of the day's work had been counted up it was found that \$5,901.56 was in, \$500.00 of which was secured yesterday. This leaves only \$98.50 to complete the fund. The association has 700 individual friends, and the solicitors have been met with enthusiasm.

These workers who go forth this evening will not have a difficult task, especially if they have the pleasant experience which happened to one of them yesterday, who was walking down Cascade avenue. A friend of the association passed her as he was riding a bicycle, and stopping, gave her, uninvited, a generous donation to the campaign.

Many Springs residents have been drawn much closer to the work of the Y. W. C. A. by this campaign and have learned intimately the purposes and efforts of the association.

Although the most sanguine hopes

## Man Who Is Killing Boss Rule in New York

John A. Hennessy, chief graft investigator for the impeached Governor Sulzer of New York, whose work in unearthing corruption in state contracts is said to have been the direct cause of Sulzer's impeachment, by his political enemies.

## CENTRAL BANK IS MILITIA WILL IDEA REFD PLAN PROFICI ALL MEN WORKING

### OWENS SAYS NEW PROPOSAL CAN'T WORK

Ranking Scheme Provides for Centralization of One-Half of Reserve

WASHINGTON, Nov. 6.—An entirely new feature was tentatively written into the administration currency bill today by the senate committee after a full day of heated wrangling.

The new plan was characterized by Chairman Owen, chief administration supporter in the committee, as "equivalent to a central bank." He said the committee adjourned with the matter "up in the air."

The new scheme would provide for the centralization of one-half of the reserves to be held by the regional banks in the proposed new system. This proportion would be placed under the complete control of the federal reserve board and would be located in Washington, to be administered for the aid and convenience of the entire banking system. As finally voted upon the proposal was a modification of a plan proposed by Senator Reed of Missouri, who suggested it as a means of composing the wide differences among members of the committee. Senator Reed and Senator Littlecock joined with the Republicans in voting for the plan, which was opposed by Senators Owen, Pomerene, Hollis, O'Gorman and Shafroth.

Owen Doesn't Like Plan.

Senator Owen was plainly agitated over the progress of affairs in the committee today. After the vote of the Reed proposal he declared that if given an opportunity he would demonstrate the plan would not work. Senator Reed declared he was willing to be convinced and it was arranged that Senator Owen should make an argument on the point tomorrow.

This plan would deprive the resources of the various regional banks to a degree which the supporters of the scheme have not thought of," said Senator Owen, after the committee adjourned tonight. "I will undertake to show the regional banks would be hampered and restricted in their discount operations if this plan prevails. The matter is still pending."

After the vote on the Reed amendment the administration forces advocated to put through the administration plan for bank control and ownership of the regional banks. This point provoked a tangled argument and will be taken up again tomorrow.

Wilson Confers With Weeks.

Talks of a possible Democratic caucus to consider the progress being made by the committee quieted down today.

President Wilson sent for Senator Weeks of Massachusetts, Republican member of the banking and currency committee, and discussed the situation with him for an hour tonight. The senator declined to talk of his visit, but it is understood he has a compromise plan in which Senator Hoke Smith of Georgia is said to have endeavored to interest many Democrats and which would retain many of the features of the house bill. It is believed the president told Mr. Weeks just what parts of the house bill he considered fundamental and essential and what features of it he regarded as debatable.

Twenty-five xepsons were secured by the state militia in the search of Ludlow. The report that the strikers' camp had been searched was denied late today by Adjutant General Chase.

Forbes, a camp of the Rocky Mountain Fuel company, 12 miles north of here, was occupied by the militia this morning following a small skirmish shortly after midnight last night between strikers and guards. According to the report received by Adjutant General Chase, the strikers opened fire upon the home of Robert Nichols, superintendent of the mine. The guards returned the fire and the attacking party withdrew. No damage was done. Troop C, cavalry, was dispatched to Forbes at daylight, and General Chase followed later to make a personal investigation of the affair.

Later he planned to go to Ludlow regarding the outbreak.

The hospital corps this morning resumed the work of inoculating the soldiers to render them immune to typhoid fever.

## MAYOR AND ALDERMEN OF ROME RESIGN FROM OFFICE

ROME, Nov. 6.—Mayor Nathan and all the aldermen of Rome, after a heated discussion today, decided to resign from office. This action was due to the defeat on November 2 in the second ballot of the general elections of the two candidates in Rome supported by the municipal "block."

## SCHOOLS WILL REQUIRE \$277,300 FOR NEXT YEAR; BOARD ESTIMATES; ASK 4.5 MILL LEVY

Assessed Valuation Now \$41,712,600; Ask Special Levy to Pay Off Bonds

The public school system of district No. 11, which includes Colorado Springs, will require an expenditure of \$277,300 for the current year, July 1, 1913, to July 1, 1914, according to the report presented by F. P. Evans and C. H. Dudley of the auditing and finance committee of the board of education, at the regular meeting last night.

Evans told of the fact that in that state that resided in prohibition. She and other state officials urged the necessary action to be taken to prohibit the sale of intoxicating liquors in the interest of the nation's prohibition bill.

Miss Mary Harris, Aman of Georgia, told of the fact that in that state that resided in prohibition. She and other state officials urged the necessary action to be taken to prohibit the sale of intoxicating liquors in the interest of the nation's prohibition bill.

It is estimated that the receipts from the general school fund will be \$26,000, the amount to be raised by the special levy. The committee recommends that the special levy be fixed at the rate of 4.5 mills. As the assessed valuation of district No. 11 is \$41,712,600, this levy will have a deficit of about \$6,000 at the end of the year, allowing for loss in tax collection and providing that expenditures are kept within the estimated budget.

The committee also recommends that the board of county commissioners levy a tax of six-tenths of a mill to pay the interest which falls due this year on outstanding bonds of the district, and that the board of county commissioners levy a tax of five-tenths of a mill to pay off about \$3,000 of the

Estimated Receipts

Assessments—the usual estimate for the needs of the district, an estimate of receipts from the general school fund, \$32,000, leaving the sum of \$32,000 to be paid off.

(Continued on Page Three.)

## PIONEER HISTORY A NEW COLLEGE STUDY

Dr. Hester D. Jenkins to Be in Charge of Course Soon to Be Started

A course in pioneer history—the only one in the west—is to be offered at Colorado College, according to plans now under way.

The course will be under the direction of Dr. Hester D. Jenkins, professor of history, and will deal largely with the history of the early days in Colorado and the Pikes Peak region.

Data for the course will be obtained from members of the El Paso County Pioneer Society, many of whom have considerable material. Prof. J. H. Kerr, genealogist for the society, has a large amount of material, and scrapbooks with practically the entire history of the region.

A number of eastern institutions have started courses in pioneer history and those have found immediate favor. Yale, Harvard, Chicago, Princeton and Vassar have such courses but as far as is known none of the western institutions have taken up this line.

Irving Howk has gone east to have his book on Indian wars published and this volume should furnish much material for the study of the Indians here. Data will be taken up on the distinguishing features of the various tribes. In Colorado the Utes were the mountain Indians while the Arapahoes and Apaches were from the plains.

Students will delve into the mysteries of the Ute Pass trail, which is known to be at least 500 years old. How much older and the origin of the trail will be the object of research work in the class.

The naming of the streets of Colorado Springs furnishes an interesting example of the nomenclature of the region as well as the state. The streets were named by Mrs. W. J. Palmer and the avenues by Helen Hunt.

The course, the details of which have not been worked out, promises to be a popular one with students and town people alike.

## CHILDREN DRIVEN HARDER IN TENEMENTS THAN MILLS

PHILADELPHIA, Nov. 6.—A biology class today by State Factory Inspector Nelson declares that parents in many tenement districts urge their children to work at home under far worse conditions than obtain in factories.

Children 6 and 7 years old are pulled out of bed at 6 o'clock, shaken into wakefulness, given a drink of strong coffee and made to stand for hours at the monotonous tasks in the tenement. A child may be made to stand under conditions that put to shame our laws and baffle the efforts of our inspectors.

Many Springs residents have been drawn much closer to the work of the Y. W. C. A. by this campaign and have learned intimately the purposes and efforts of the association.

Although the most sanguine hopes

NEW YORK STARTS WORK ON 1,000-FOOT PIER

NEW YORK, Nov. 6.—Work was begun today on the 1,000-foot pier at Hudson river and Forty-sixth street.

The pier is the pier-on-harbor im-

provement, which is claimed will

place New York on a par in accommodations for shipping with the great harbors of the world.

## ELECTION RETURNS REMAIN THE SAME

Complete Returns Do Not  
Make Material Differences  
in First Results

PRENTON, N. J., Nov. 5.—The returns from yesterday's election in this state, while not officially tabulated, indicate that James F. Fielder, Democrat, will receive a plurality of at least 32,000 over Edward C. Stokes, Republican, in the race for governor.

The Democrats also gained control of both branches of the legislature. The state senate will stand 11 Democratic to 10 Republicans, and the assembly will be composed of 36 Democrats and 24 Republicans. This will insure a Democratic majority of 12 in joint ballot and make certain the selection by the legislature of a Democratic comptroller.

Mr. Fielder received pluralities in 15 of the 21 counties, while Stokes secured pluralities in the six remaining counties. Everett Colby, the Progressive candidate, is estimated to have polled upwards of 40,000 votes in the state.

Park New Georgia Representative.  
ALBANY, Ga., Nov. 5.—Judge Frank Park, Democrat, of Sylvester, today was elected to fill the unexpired term of the late Representative S. A. Roddenberry of the Second Georgia district. With only four precincts missing, the vote stood: Park, 4,692; Isaac Luke, 2,782, and W. A. Covington, 1,310. All candidates are Democrats.

BALTIMORE, Nov. 5.—Practically complete returns from yesterday's election in Maryland indicate that Blair Lee, Democrat, was elected to the United States senate by a plurality of 42,000. The pluralities of E. C. Harrington, Democrat, for comptroller, and C. C. Magruder, Democrat, for clerk of the court of appeals, probably will exceed 30,000.

CHICAGO, Nov. 5.—Mrs. Emmeline Pankhurst expressed today her pleasure at the attitude and activity of women shown yesterday at the local option elections in southern Illinois. About 15,000 women went to the polls and nearly 80 per cent voted against the saloons.

It is only a question of time when women will drive the liquor traffic from Illinois," said Miss Pankhurst.

Congratulations From London.

LONDON, Nov. 5.—The morning papers congratulate the American people on the defeat of Tammany, which they consider gives hope of a new birth of Democracy in America and a higher standard of civic responsibility. They think also that it is proof of renewed confidence in President Wilson's administration.

The Graphic regards the result of the elections as a manifestation of the nation's approval of President Wilson's spirited Mexican policy, which Huerta would do well to take to heart.

A rural mail box with a loose bottom that closes at a circuit and rings an electric bell at a distance when even a postal card is dropped on it, has been patented by a Californian.

## HARVESTER TRUST TO REORGANIZE AT ONCE

Such Is Demand of Attorney  
in Final Arguments in  
Dissolution Case

ST. PAUL, Minn., Nov. 5.—Attorney General James McReynolds, concluding final arguments for dissolution of the International Harvester Company before the United States district court this afternoon, asked that an interlocutory decree be entered by the court declaring the harvester concern a monopoly in restraint of trade, and further asked that the defendants be given a reasonable time, and only a reasonable time, to submit to the court a proper plan of reorganization.

"When such decree has been rendered," said Mr. McReynolds, "the government will be ready to pass upon the character of the reorganization plan."

"But it is the view of the government that this company must be cut up into separate and distinct units. This must be done in such way that the stockholders of the different parts will be distinct. We insist it is an economic impossibility for companies owned by the same people to furnish home competition."

Scores Cyrus McCormick.

In his closing argument, which was brief, Attorney General McReynolds quoted Cyrus McCormick, whom he called the founder of the harvester "trust" because Mr. McCormick had not appeared in the case. Mr. McReynolds said:

"We are told someone saw a vision at the time this great organization was perfected. But the man who saw that vision has not been brought before us. It is one of the most significant facts in this case that this man has not opened his mouth."

"Don't you suppose if the philanthropic purpose pleaded by counsel for the defense here had really existed, Mr. McCormick would be here telling in trumpet tones of that purpose?"

Mr. McReynolds reviewed the career of the harvester company from the time of the organization, 10 years ago, pointing out to the court specific instances in which he alleged the law had been violated, and which he averred furnished more than ample basis for an order of dissolution.

Never Lost Business.

"The story of this powerful monopoly, marking time, or losing business here and there, as related by some of the counsel for the defense, is absurd," said the attorney general. "Take the finances of this concern in 1902 and take them now, and what have we?"

"In 1902 the total business done by the International Harvester company was \$53,000,000. In 1912 it had increased to \$125,000,000. In the same length of time its capital had increased from \$120,000,000 to \$183,000,000 and between 1902 and 1912 by the latest figures available, the assets of this concern had increased from \$120,000,000 to \$223,000,000. These figures tell the story of the rapid growth of the power of this concern. This expansion has been so enormous that the world of this corporation has become absolute law to thousands and thousands."

Born Automatically.

When the McCormick, the Deering, the Flagg, the Champion, the Milwaukee and the Chicago companies entered this reorganization, then this monopoly automatically was born. The existing competition between these six companies, the absolute leaders in the country, was wiped out and in its place a monopoly existed as plainly as the decision of the supreme court could define it.

For having come together in this organization, what was the result? We find that the International Harvester company in its first year had the following percentages of the nation's business in the varied lines: 95 per cent of the binders, 85 per cent of the corn binders, 92 per cent of the mowers, 80 per cent of the rakes and 90 per cent of the twine.

"And there is nothing in the record or evidence to show this situation has changed in 10 years. Of course, there has been some competition, but the fact stands out that we have more than 90 per cent of the great harvesting companies of the country put under one company."

Power Is Absolute.

No man who looks on that picture can fail to see this concern had the absolute power to fix prices. Of course it exerted no desire to get 100 per cent of the business. A certain amount of competition keeps down public sentiment and helps in other ways. The fundamental idea of a monopoly is a power which can control here beyond any question of doubt.

The investigation of intent is material. Plaintiff's purpose cannot be pleaded as justification for the result. When these defendants purposefully entered into this organization into this conspiracy, they held themselves liable to a charge of guilt for the result.

At the conclusion of Mr. McReynolds' argument court adjourned and the case was taken under advisement.

Russia Buys John Hays  
Hammond's Residence in  
Washington for Embassy

WASHINGTON, D. C., Nov. 5.—The Russian government has just purchased the palatial home of John Hays Hammond, the mining millionaire, on one of the principal residential streets for its new embassy residence. The residence is one of the landmarks in Washington and it is valued at a sum total of about \$500,000. The residence was originally built by the late George M. Pullman, but was never occupied. Last May it was sold to Mr. Hammond. He later decided to make his home in New York, thus again leaving the place unoccupied. He decided to sell when negotiations were being on by the Russian government for the embassies home.

## ATTEMPT TO RUN CAR; CREW NEARLY KILLED

Thousands of Indianapolis

Street Car Strikers Pre-  
vent Operation

INDIANAPOLIS, Ind., Nov. 5.—An effort to resume street car traffic, which has been tied up since last Friday night by a strike, resulted today in serious injury to seven strikebreakers and two policemen. Several thousand persons, many of them armed with bricks, surrounded the car and prevented its progress, while a downpour of missiles from the roofs and windows of buildings along the route threatened the lives of the strikebreakers and police. It was believed the militia will be called out tomorrow, at the request of civic bodies.

Governor Ralston would not state

what action he would take, but he intimated his reason for not ordering out the troops at once was because they could not be mobilized before tomorrow morning.

Six strikebreakers injured in today's rioting, who were able to travel, returned to Chicago tonight at the expense of the labor union. When John Sullivan, motorman of the car, and the most seriously hurt, was knocked to the floor, the others abandoned the car and agreed to leave Indianapolis.

Strike sympathizers who went back later in the day to remove the car from the tracks and block further traffic on the line were dispersed by 50 policemen. Many of the cars which were dosed on the streets when the strike was called have been removed from the rails, and will prevent any traffic on the downtown lines until replaced.

Thomas Carlton, who was shot in the Louisiana barn riot yesterday, died today.

A new proposal from the striking motormen and conductors, in which they waive recognition of the newly formed union, was submitted tonight to Governor Ralston by W. G. Beatty, president of the Central Labor union, representing the men. Recognition of the union was the demand most vigorously opposed by the Indianapolis Terminal and Traction company.

The men however, still demand high-  
er wages, shorter hours and arbitration of all future differences.

CHICAGO, Nov. 5.—What was said

by the officials to have been an extensive gambling scheme, in which more than 500 women participated, and to which women were attracted through the mail, resulted today in a federal indictment against Mrs. Sarah Foster. The woman is charged with conducting a card game and lottery and offering prizes to those who pay membership fees. It was alleged that at one time Mrs. Foster had several thousand members, procured by advertisements sent through the mails.

## BREAKS A COLD OPENS NOSTRILS

CHINESE HARMLESS  
IN MILITARY WAY

Yellow Men Don't Believe in  
Power; Don't Admire Mili-  
tarism, Says Roots

ST. LOUIS, Nov. 5.—The Rev. Logan H. Roots, Protestant Episcopal Bishop of Hankow, China, in an address here tonight said the western world need fear no military yellow peril from China.

"The Chinese," he said, "do not believe in military power and do not admire militarism. Whatever happens to China, the Chinese race will remain great and will have a part in the political life of the world without any menace to the western world."

"Either the present republic will succeed or it will be so unsuccessful that in order to secure peace the foreign nations will partition the country. I can think of no greater calamity than the partition of China, a calamity both for China and for Europe. But I believe the republic will succeed, because new ideas have taken root all over China. It never again will be possible for one man to dominate the thought of the country or the government.

Had Bad Effect on Morals.

"The political and intellectual revolution which China has undergone has had a disastrous effect on the morals of China. The old basis of thinking has been undermined and the young men of China are asking questions about ethical principles. The great peril of China, as of all the orient, is that the people will not get a new moral basis to replace the old."

Bishop Roots declared that a great opportunity was presented for Christianity to lay in China a new moral foundation. He said that the movement in China for the revival of Confucianism he made the state religion which would not be obligatory but which would be supported by the state in the same manner Great Britain supports the Church of England.

Dangers Are Great.

"The danger of making Confucianism the state religion," continued Bishop Roots, "is twofold—first, such a policy might close some of the many doors now open to Christianity and second, if the religion is established it will lose its moral power and thus instill in the Chinese mind a contempt for all religion."

"We Christian workers want in China complete religious liberty, a free field for all and no favors."

"One of the most significant things in China now is that the Christians of the nation are beginning to feel a national religious consciousness and to feel that their religion should do for their nation what Christianity has done for Europe and America."

CHICAGO WOMAN CHARGED  
WITH OPERATING LOTTERY

CHICAGO, Nov. 5.—What was said

by the officials to have been an extensive gambling scheme, in which more than 500 women participated, and to which women were attracted through the mail, resulted today in a federal indictment against Mrs. Sarah Foster. The woman is charged with conducting a card game and lottery and offering prizes to those who pay membership fees. It was alleged that at one time Mrs. Foster had several thousand members, procured by advertisements sent through the mails.

## SOAP ON HAIR CAUSES DANDRUFF, SCALP GETS DRY, HAIR FALLS OUT

Girls! Get a 25-cent bottle and  
try a "Danderine Hair  
Cleanse."

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be

wavy, fluffy and abundant, and possess an incomparable softness and luster.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping tickling and falling hair. Danderine is to the hair what fresh showers of rain and sun shine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Meat Lovers! You can surely have lots of charming hair. Get a 25-cent bottle of Danderine from any drug store or toilet counter and Adv.

guished and suddenly a woman rushed from the doorway and sprang into the taxicab, which, surrounded by mounted police, proceeded to Bethnal Green.

Then Miss Daisy Lansbury, daughter of the ex-Socialist member, stepped out, much to the discomfiture of the Will Club Police.

Meanwhile Miss Pankhurst entered the Bathes practically unobserved. The only disorder was caused by an attack by the women on a few reporters whom they suspected of being detectives. Mr. Lansbury and Sir Francis Vane followed Miss Pankhurst to the platform.

The Boer veteran explained that he proposed to establish labor "training corps." Waving aloft a huge knotted club, Sir Francis said he was prepared to use that weapon wherever he saw women injured or wherever the oppressed needed aid.

The general staff of the organization will be drawn from officers who have seen service. Men and women are eligible for the ranks.

Miss Pankhurst said the plan was based on the Ulster model and she expected the same immunity from government interference enjoyed by Sir Edward Carson, the Ulster leader.

When Miss Pankhurst left the meeting she was surrounded by a bodyguard of West Enders and made her escape after a lively battle with the police who had just returned and who were compelled to draw their clubs.

The crowd retaliated with sticks and several of the belligerents were injured. In the scuffle Miss Pankhurst, who was knocked down and bruised about the head, escaped unscathed, being carried away by sympathizers.

The lights in the house were extin-

guished.

At the first of Nov. 5, having paid his respects to the dead, Oneida, he turned to the Allights of York and said: "I am glad to be here to pay my respects to the dead." At the second in the cemetery, where the dead is interred, he said: "I am glad to be here to pay my respects to the dead." At the third in the cemetery, where the dead is interred, he said: "I am glad to be here to pay my respects to the dead."

One of the most significant things in China now is that the Christians of the nation are beginning to feel a national religious consciousness and to feel that their religion should do for their nation what Christianity has done for Europe and America."

The members of the special Mexican

commission to Japan recently placed

At the request of Gen. Venustiano Carranza, the Constitutional chief, Dr. Henry Allen Tupper of the International Peace forum, telegraphed Secretary of State Bryan today, as follows: "Carranza makes only this request that our government permit the free importation into Mexico of arms and equipment. He gives positive assurance, under these circumstances, of speedy peace and stable constitutional government and he deplores intervention as a grave and disastrous mistake."

General Carranza is waiting here in the belief that he will be visited by William Bayard Hale as an unofficial representative of the Washington administration. A report has reached Nogales that Mr. Hale is on his way from Washington in company with Perez Romero, agent of the Constitutional government.

#### Washington Denies Report.

WASHINGTON, Nov. 6.—Senor Perez Romero said tonight that he knew nothing of any intention for William Bayard Hale to visit Sonora in his company.

Persistent reports have been received here from border points stating that Mr. Hale was en route south, but officials of the government declare no envoy were being sent to the Constitutionalists and denied knowledge of Mr. Hale's whereabouts. It is understood, on the other hand, that the Constitutionalists have always unofficial means here of communicating their views to Washington officials whenever they have had anything to place before the government.

VERA CRUZ Nov. 6. The German cruiser *Horthy* sailed from here this afternoon. The only foreign warships now in port are five United States battleships and two United States cruisers.

Rear Admiral Fletcher today transferred his flag to the battleship Rhode Island. Rear Admiral Bouch taking command of the Louisiana. The Louisiana will sail at an early date for Tampa.

## FUNK FINISHES TESTIMONY IN HIS DEFAMATION CASE

Repeats Sensational Statement Before  
Lorimer Committee Relative to  
Hines' Request for \$70,000

CHICAGO, Nov. 5.—The state today rested its case against Edward Hines and Isaac Sternfeld, the lawyer and defendant charged with having conspired to defraud the U. S. & P. R. Bank, put the finishing touches today on the testimony for the prosecution in taking the witness stand and declaring that he never saw Mrs. John J. Hening but he was present in this trial and discussed with the state alleged to be the motive for the attack on Funk by repeating a portion of his testimony in the interim investigation.

The court would not allow Mr. Funk to testify that he had been watched by detectives one of whom told him that he was in the employ of Edward Hines. The names of Hines and Sternfeld were brought in when Funk reiterated his sensational statement before the Lorimer investigating committee on which he declared that Hines had asked him for \$10,000 toward a \$100,000 fund that had been used to put Lorimer over.

An investigation was begun into an alleged attempt to tamper with the jury. It was reported to Judge Pam that a man had approached an attorney opposite the hotel apartments of the jury and had tried to attract the attention of the 12 men.

under arrest will be taken to Mexico City tomorrow under a heavy guard

**Cruiser Sent to Mexico.**

The scout cruiser *Chester*, at the Philadelphia navy yard, was ordered today to prepare to sail for Vera Cruz immediately. The *Chester* is not a heavy fighting ship but swift and valuable for dispatch and about duty of lighter draft than the big warships now at Vera Cruz she will be able to join the smaller craft in shore.

The *Chester* is the highest power wireless ship in the navy. With her apparatus, Washington and Vera Cruz will be in direct touch constantly by means of the great wireless towers at Arlington. The unofficial view is that the *Chester* is being sent to Vera Cruz principally as a means of instant and official communication.

Secretary Daniels announced that the armored cruiser *California*, which was to have been relieved by the Pittsburg now on her way to the west coast of Mexico from San Diego, Cal., would be kept in Mexican waters for the present. The American naval force on the west coast will include the California, Pittsburgh and Maryland, all armored cruisers, the gunboat Annapolis and the supply ship *Guys*.

**NOGALAS, Ariz., Nov. 6.**—Officers commanding the United States troops on border patrol here received orders today to prepare equipment for field service. Railroad officials at division headquarters at Tucson also received requests for immediate statements regarding the facilities they could furnish for movement of troops.

#### Rebels Marching on Piedras Negras.

EAGLE PASS, Tex., Nov. 5.—Constitutionalist forces are closing in on Piedras Negras, Mexican government troops are sleeping on their arms in anticipation of an attack. The village of El Moral five miles south of the border was abandoned to the rebels today, the federal troops there returning to Piedras Negras.

The Constitutionalists were reported within five miles of Piedras Negras tonight and advancing from all sides. Piedras Negras, the former provisional capital of the Constitutionalists, was abandoned to the federal forces several weeks ago.

#### GOVERNORS OF MISSOURI AND ARKANSAS TO HUNT BEARS

ST. LOUIS, Nov. 6.—Governor Major of Missouri and Governor Hayes of Arkansas will start next Wednesday on a bear hunt on the estate of Col. Fred J. Gardner of St. Louis. The game preserve is in St. Francis county, Arkansas.

## WOMAN SUFFRED TEN YEARS

From Nervousness Caused by  
Female Ills Restored to  
Health by Lydia E.  
Pinkham's Vegetable  
Compound.

AUBURN, N. Y.—"I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health,"—Mrs. WILLIAM H. GILL, 15 Pleasant Street, Auburn, New York.

#### "Doctor's Daughter Took It."

ST. CLOUD, Minn.—"I was so run down by overwork and worry that I could not stand it to have my children talk about or walk heavy on the floor. One of my friends said, 'Try Lydia E. Pinkham's Vegetable Compound, for I know a doctor's daughter here in town who takes it and she would not take it if it were good.'

"I sent for the Compound at once and kept on taking it until I was all right,"—Mrs. BERTHA M. QUICKSTADT, 727 5th Avenue, S. St. Cloud, Minn.

Lydia E. Pinkham's Vegetable Compound may be relied upon as the most efficient remedy for female ills. Why don't you try it?"

## LOCAL ASSOCIATED CHARITIES BECOMES FORWARDING CENTER FOR ENTIRE STATE

### Semi-Annual Report of Agent Wood F. Worcester Shows Many Cases Handled

The Colorado Springs Associated Charities has been made the forwarding center for the state of Colorado by the Russell Sage foundation. According to a report of Agent Wood F. Worcester, given at a meeting of the executive committee yesterday, the object of the forwarding center is to secure information for organizations concerning cities or individuals.

The executive committee fixed the annual meeting of the association for Tuesday, November 15, at 3 o'clock p.m. It will be held in Perkins Hall. There will be a report of the agent for the year, and the election of eight directors to succeed those whose terms expire this year. These are: William K. Argo, Irving W. Bonbright, Miss Dennis Burns, Dunlap F. Carpenter, Clarence P. Dodge, Mrs. F. H. Tette, William A. Vance and Mrs. W. H. Williamson.

At yesterday's meeting John H. Barker was named as auditor for the coming year. The report of Agent Worcester was as follows:

#### Report of Agent Worcester.

During the last six months, the sum of months of the year, the work of the Associated Charities has been heavier in volume than during the corresponding period of last year. The number of cases assisted is practically the same for the two years—216 in 1912 and 219 in 1913. Yet the work of this year has been heavier because of the 219 people applying this year, 120 were families and 99 were homeless men. Last year of the 216 91 were families and 127 were homeless men.

The office work shows 556 visits, as against 415 of the preceding year, and 1,204 were calls at the office, as against 1,478.

The work in itself has been so great that it would be impossible to present it in a report as this. There has been a great deal of temporary relief, requiring provisions of all kinds, rent, food and clothing.

We have had many requests for transportation. In some cases it has been wise to grant them, and in others to refuse. In nearly every case where transportation has been granted it has been for the purpose of sending to his home a tubercular person, in the advanced stages of the disease. Although this perhaps makes the amount spent on transportation seem very large it is the most humane, and, in the end, by far the cheapest thing for our organization. The average cost per ticket is perhaps \$20. Twenty dollars will only pay for the care of a tubercular person for a short time. In every instance an attempt is first made to get the transportation from friends and relatives. Then, if this fails, the money is supplied by our community. Although it is a burden that is unjustly placed upon us, there seems at present no way to avoid it.

#### Tells of Girl's Rescue.

During the last months we have had a very difficult, as well as a most interesting case, that of a girl of comely appearance, who is trying to "come back," after seven years spent in houses of prostitution. Of all the sad stories that have been poured into our ears none has equalled this. The depths to which she sank and the frequent that she received at the hands of men

are beyond belief—one thing stood out clearly as she told of the life namely that it is the most, sinfully and the labor that make the houses pay. Despite them of these, and men, will not go.

The struggles she has had made to lead a respectable life have been heroic. The difficulty of securing work positions has been the story of her past, but in addition to this, for the point where her last case was filed for a night's lodging, all these things have happened again and again—would seem to have anyone back into the life. Why she is no longer back in the life, we are told, is the most doubtful part of her experience, but the fact is that she has secured positions in several instances through the recognition of men who had been portions of the houses in which she had lived.

Through the contributions of one to whom I told the story, we were able to place her among friends, who are doing everything in their power to aid her.

November, with us, is always a heavy month. It is the advent of winter with its train of hardships for the poor. This year coal is high and practically out of the reach of many. We shall be obliged to furnish more than usual, and at the increased cost Thanksgiving means increased work and increased expenses. If we are to meet the requests made upon us we must have generous responses to our appeal for funds.

An honest and perhaps some valuable

service has been made to the Russell Sage foundation by the Associated Charities, and the amount is \$1,000.

The forwarding center has been established at Manitou. The postoffice position at Manitou has already aroused a spirited contest among the various candidates. Thomas J. Stanford and J. W. Brady being the most prominent mentioned. Congressman S. C. Clark has decided, however, not to run, the Manitou office will be filled by H. H. Griswold's term, which will expire until January. The election probably will be made early in October, so that the Senate can run the appointment.

Postmaster John E. Lyons, of the radio City, holds office until 1914, and no appointment is to be made until that time.

According to rumor, Lyons, Lyons, chairman of the Denver county central committee, probably will be named as a collector of internal revenue under Mark A. Skully. Lyons was one of the candidates for the post-office position. His appointment probably will be made before the first of the year.

MANITOU WILL HAVE NEW POSTMASTER IN JANUARY

Seldomridge Silent as to Choice. Lyons to Have Birth with Internal Revenue Office

With the postmaster position at radio City, Manitou, the Russell Sage foundation has been made to the Associated Charities, and the amount is \$1,000.

## NEW YORK MARKET

NEW YORK, Nov. 6.—Although the stock market today was under virtually the same influence as those which depressed prices recently, there was a general advance. Trade reports, especially from the steel and iron industry, were anything but encouraging, and the Mexican situation reached a point where the street was prepared for highly important news at any time.

That stroke was under these conditions implied no change of sentiment, which remained bearish. Short selling had been carried to a point which strengthened the market's technical position, and shorts who attempted to cover found it necessary to bid up prices to procure stocks. Trading was highly professional, and coverings seemed to be largely responsible for the upturn.

The opening was slightly lower, in response to the decline in American stocks abroad over the election day holiday here. Prices remained well above those abroad, and the list quickly advanced. Most of the wide movements were in the first hour, in which the leaders made net gains of 1 to 2 points. Trading thereafter was increasingly dull, but gains were well held.

With the November 1 payments out of the way the money market showed a tendency to relax from the stiff rates of the last few days.

The weekly steel trade reviews were again pessimistic.

Bond prices fluctuated uncertainly over a narrow range. Total sales, per value, \$1,770,000.

United States bonds were unchanged on call.

reigning modes in high-class furs combine to make our showing this season the most complete and authoritative we have ever carried. We have on display the most fashionable and popular skins and invite you to call and inspect them.

CARS DERAILLED—Two cars of a Colorado Midland freight train were derailed near Woodland Park at 7:15 o'clock last night, and as a result all Cripple Creek trains which have been using the Midland tracks were compelled to use the Short Line tracks to Cripple Creek. No damage was done and officials hope to have the tracks cleared in a short time.

REYER BROS. Undertakers and Embalmers, 16 E. Kiowa. Phone 298. Adv.

MRS. THOMAS RYAN DIES

Mrs. Thomas Ryan, wife of "Tommy" Ryan, a wrestler, died yesterday on a ranch near Cripple Creek, according to word received here last night. She and her husband had been living on the ranch on account of her health. A 14-months-old baby survives. The body will be sent to Florida for burial.
